OA Bracing

Millions of adults have osteoarthritis of the knee. Many of these patients are looking for a conservative solution to relieve pain and return to daily activities. Eschen takes a detailed approach to match the bracing styles with each patient's individual needs and expectations.

Mild/Moderate

Our single bar, lightweight neoprene style braces provide support for mild/moderate OA and are the perfect solution for patients who want a low profile option.

Moderate/Severe

The double upright, rigid functional braces provide extra stability for those patients with moderate/severe OA and want to continue an active lifestyle.

The custom OA unloader allows patients of all body types and severity to experience pain relief and a return to daily function.

Eschen has a 30 day exchange policy for all OA braces. This ensures patient confidence and satisfaction.
